

Sirs:

I am writing to you to comment on the LPFM consideration you will be addressing soon. I am not in favor of a ruling that will take away KLOVE radio from us here in the mid-west, the Torrington area specifically. KLOVE radio provides a needed service to our community here in the Torrington area. We are all in need of good, clean, family programming. KLOVE does this consistently. If KLOVE would be taken off the airwaves, and displaced with LPFM, we would lose a vital service provided to the community. KLOVE is an uplifting, family helping station. We would suffer a great loss if this station is removed from our listening area. I do believe that the service provided by KLOVE is in the public interest. Please consider these comments before ruling on this important issue. Thank you.
